

The Tawe Trial: Introduction

This website *opportunities for the sustainable management of the Tawe's natural resources* is the output from the Tawe trial. The opportunities have been presented in the form of an interactive website (<http://arcg.is/1sdCmTi>). You will find lots of information to explore including; maps, videos and reports.

On the right hand side of the website you will find the summary text for each section (scroll down to see more text) with the full text downloadable at the end. Where text is either in **bold** or underlined this brings up more content on the left hand side of the screen. The maps and content are interactive so feel free to explore them.

We have designed it to be used in its entirety or as a place to go for evidence, information and ideas. Please set aside some time, make yourself a cup of tea and enjoy exploring your way through the journey towards sustainably managing the Tawe's natural resources.
